City of Brussells collided with other steamer in Mersey and sank. Two passengers and 8 of crew drowned.

MUNICIPAL REFORM.

The public of this city will be interested in knowing that at last there is a probability that the vasura deposit in Calle Rivadavia, facing the Lacroze Tramway Station, will be removed to some less objectionable spot. On Wednesday a rather animated discussion arose in the Municipality on this subject, caused by the reading of the various bids for the building of a brick wall, and the making of a vereda around the square at present occupied by this Municipal nuisance. The lowest bid for the work was on the point of approval when one of the members of the Municipal Board, who had been absent for some months, and knew nothing of the call for bids, objected, and grounded his objection on the expressed wish not only of the residents of the district, who complained for years back of this nuisance, but also of two-thirds of the population of the town who now and then have to pass in the tramway or in coaches this most pestiferous nuisance. The chairman of the Municipal Board stated that although all admitted the vasura deposit in the Calle Rivadavia was a nuisance, still as the service of the vasura was connected with the service of the Western Railway, it was difficult to see the way out of the matter, and furthermore, that, even supposing the vasura deposits should be removed, the wall and vereda, according to the reglamento of the Municipality, had to be made; every property holder in the city was obliged to make like improvements, and the Municipality should be the first to obey its own reglamento, and set the citizens good example.

The opposing Municipal to the measure replied that it would be alike incorous as improper to build a wall around what was confessedly a nuisance ; it would, as it were, give permanence to that nuisance, and he trustned the Board would not countenance such an act. The people in Flores, Almagro, Caballito and the western part of the city beheld with astonishment that a President of the Municipality who had done so much to adorn, improve and beautify the city as Mr. Alvear, would tolerate such a Municipal scandal, such an immoral nuisance, as this public depot of city filth openly established under the very noses of the citizens. Not a brick in that proposed wall should be put up, if public health, and public decency and public morals are to be consulted; and he asked the Corporation not only to reject the "licitation," but also to request the Public Health Committee to at once look about for other and more adaptable parts for the 'vasura' deposits of the city.

The Lord Mayor expressed a hope that the objecting member of the Board had already visited the vasura yard and studied the question as to its possible removal, before occupying the time of the Board with his views on the matter.

The opposing Municipal replied that he had done all this and more; that he had gone over and over the pestiferous yard in order if possible to discover why so eminently practical a man as Dn. Emilio Castro located this vasura deposit in the very centre of one of the greatest thoroughfares of town. He hoped his colleagues would take his view of the question, and reject wall, vereda, and licitacion, and insist on removal of the nuisance; the question was then put and voted unanimously that the licitacion, vereda, and wall be rejected, and the Comision Higiene at once to look for other quarters for the vasura depot, which will be removed from the public thoroughfare as soon as possible.

The Board then rose.

STATE OF THE CAMPS.

In the *Rural Magazine* for the present month we find a most alarming description of the state of the camps. Our colleague says that in the month of January the losses in the flocks have been very severe, and the camps to the north and west present the most miserable appearance. So desperate has been the situation of some of the sheepfarmers, that many of them, in order to avoid total loss, have sold their flocks at the truly wretched price of 10 m/c per head, which is a price unexampled in this country since the terrible year of 1864. These sales have been made by the farmers because they could not find camp whereto to move their flocks, and some flocks are so poor and in such a miserable state that they have been offered at 7 m/c 'al corte,' which really to us seems incredible, but coming from so responsible an authority as the *Anales* de la Sociedad Rural, we suppose we cannot doubt it.

Our colleague further states that the greater part of the camps in the south have not suffered so much from the drought.

We greatly fear that our colleague has fallen into some grave error in this question. In the far South, that is to say in the camps south of the Colorado, and in the valley of the Rio Negro, they had no rain of any account from July to December 1882. Yet the farmers down there suffered nothing from the drought, which we believe was much longer and severer than in the north and west. When we visited Pringles on the Rio Negro, in last November, it had not rained one drop for close on 5 months, yet the cattle and sheep were in splendid condition, and we saw 'capones' at Kincaid's mountain 'puesto' that gave 30 lbs. of grease and tallow, and the cows and novillos were all "carne gordo y arriba."

It may be desirable to call the attention of so useful an organ as the *Anales* to these facts, in the hope that our colleague will join with us in urging the farmers to drive their stock out to the new camps. The plain fact of the matter is, these inside camps are far too heavily stocked; and we are here to prove it that 1000 cows on a square league of camp, south of the Colorado, worth say 50,000 m/c, gave better increase and *fatter novillos* than the same number of stock on a square league of inside camp, worth two millions currency the league ! !

With regard to sheep we, of course, admit that they require a finer description of camp than cows; but why, we ask, do not the farmers strike out in a new direction and since the inside camps are so scandalously overstocked, exchange some of their sheep for cattle and make a start with a small 'rodeo' and a flock of sheep on the camps outside? The Irishmen of the downfall of Rosas period had ten times the energy and the 'go' in them that sheepfarmers of to-day have: The Daffys, Dowlings, Murrays, Browns, Morgans, Murphys, and hundreds of their stamp, struck their tents in Ranchos, San Vicente, Samborombon, Chascomus, Galpones and Cañuelas in the years of 1853 to 1857, and moved with what few sheep they had to the North. To drive sheep in those days from the Samborombon to the Fortin de Areco was a harder, more riskish and more daring job than to move out to-day from the eaten-up Capilla, or overstocked San Pedro lands, to the Venado Tuerto or Melincue, or Sauce Corto, aye, or to the Colorado, Rio Negro, or Pringles.

Desperate indeed must be the state of things in the North, if men are throwing up their sheep at 10 m/c or offering to sell them at 7 m/c al corte. In the South these sheep would be worth from 30 to 40, and the day we left Pringles last December, Rodriguez and Kincaid refused 55 m/c for a troop of 800 capones, and 500 m/c for a troop of 150 novillos. Fine sheep 'al corte' down there were not to be had, and parties wanting good flocks had to send to Bahia Blanca.

The Armstrong lands at Melincue, rented the other day for $20,000 per league, could take nearly all the surplus stock of the Capilla. We know those lands, have been over them, some 20 to 25 leagues square. Yet within a day's ride of those fine camps, there are men to be found paying 10 to 15,000 m/c a year rent for a mud hovel of a puesto, with perhaps 10 squares either way for their flocks to feed, shall we rather say to starve on. Any one of our countrymen with 100 cows and 6 to 700 sheep and a few horses, is in a position to start for himself on land that this very stock will pay for in less than 3 years. We should be slow to offer an opinion in the matter, but that we feel it our bounden duty to awaken our countrymen to their own interests. We say to every sheepfarmer in the country who has a few sheep of his own, to get horses and gallop as the Irishmen of 1853 did, out to the new camps, instead of paying exorbitant rents for these fine lands that are overstocked and overdone, and that are completely exhausted after one or two months' dry weather.

HEROIC CONDUCT OF A ROYAL MAIL OFFICER.

To the Editor of the *Standard*.

Dear Sir,

As the Royal Mail Steamer Derwent was laying at anchor at Montevideo, on the morning of the 7th inst., and during the time that most of the people were at breakfast, one of the passengers was tempted to take a bath in the placid water, but, not taking into consideration the strength of the current, was quickly carried past the stern of the ship, when his cry for help was heard fore and aft, causing consternation among the bystanders, seeing one who had travelled with them so far, and so near his destined port, sinking before their eyes, when suddenly the gallant Third Officer, who was breakfasting at the time, rushed on deck, seized a life-buoy, which he threw as far as he could towards the drowning man, and simultaneously followed it and swam with it until he reached the poor fellow, placed it over his head and swam alongside him, cheering him until assistance arrived, and he was safely taken on board.

I trust that this will come under the notice of the Royal Mail Company, and hope they will be pleased to take into consideration this really meritorious act and reward it accordingly, as such brave men reflect the highest honor on any steam-ship company who are fortunate enough to obtain their services.

I have the honor to remain,

Yours truly,

A Passenger.

BRADFORD CHIMNEY DISASTER

Everything connected with this awful accident has a melancholy interest. The English papers give the following about the little boy Brewer, who was buried in the ruins 23 hours :

About noon an extraordinary and, in some respects, unlooked-for rescue was made from the basement of the building. In one of the cellars there was working a lad, named Brewer, about ten years of age, together with at least three others. Early yesterday morning it was ascertained that there was someone alive in the cellar, and efforts were at once directed to his rescue. This was a work of great difficulty and danger, as the cellar was completely choked up by beams and other *debris* to the height of fully twenty feet. Nevertheless, volunteers, whose courage cannot be sufficiently praised, were not wanting, and after considerable exertion they were enabled to make their way sufficiently near to discover that it was the lad Brewer who had spoken, and to hand him refreshments. In answer to the inquiries he stated that although he was jammed in he was not hurt, and this news stimulated the men who had gone to the rescue to renewed exertions. By the aid of implements they were at last successful in raising the beam which held the lad a prisoner sufficiently for him to be brought out. On their appearance in the open air with the boy, the rescuers were hailed with frantic cheering by the crowd who had collected around the place in anxious expectation of the result. The lad, who appeared to be little the worse for his long imprisonment, and complained more of hunger than anything else, was taken to a room in the adjoining shed, his father, who was naturally overjoyed at the miraculous deliverance, accompanying him. Here some beef tea and hot milk were given him; and so rapidly did he recover from his exhaustion that in a few minutes he was taken home in a cab by his father. He states that when the accident occurred a large beam fell immediately above him, with one end resting on the top of the cellar wall, thus preventing any of the superincumbent material from falling upon him. A bag of bobbins fell slightly past the beam and hung suspended, so as just to touch his back when in a semi-crouching condition, but when he stooped down the bag did not descend any further, so that he was able without danger to vary his position a little. An old man, whom Brewer described as 'Charles,' was in the cellar with sis son, and heard both of them speak for some time after the accident and up to early yesterday morning. The lad, he could tell, was crying bitterly, and the man was groaning, but from an early hour all was still ; and later in the day Charles Smith and his son, aged twelve, were found dead, the son being clasped to the breast of the father.

Yesterday evening a young girl, who was terribly injured about the head, and one of whose eyes is actually missing, was removed to the infirmary, after lying in the engine-house in an unconscious state for nearly forty hours. She has throughout received the closest attention and kindest treatment from the medical staff.

The work of removing the *debris* and searching for the bodies was again continued last night with the aid of the electric light, and it was hoped that before this evening the majority of those missing would have been discovered.

Josh Billings gives some advice to a young lady as to how she shall receive a proposal :—"You ought to take it kind, looking down with an expression about half-tickled and half-smart. After the pop is over, if your lover wants to kiss you, I don't think I would say yes or no, but let the thing take its own course."

THE CHUBUT COLONY.

Senor Finoquetto, Government Commissary of this colony, has just sent in the following report, for the year 1882 :

The colony is on a plain 75 kilometres long by 9 wide, on an average. The valley begins at the mouth of the river Chubut, and runs S. 78° W. to its termination ; it is bounded on each side by masses of rock on a level with the steppes on both banks, which are only separated by the river. All the land is surveyed. The Chubut river runs through the whole of it, the current being about two miles or so an hour. The river's mouth is situated on 43° 20' 23" S.L. and 65° 1'30" W.L. from Greenwich. The cultivated lands commence at about 7 kilometers from the mouth, at the town of Rawson.

The prevailing winds, which are very strong, are from the S. S.W. S.E. and North ; but it rarely blows from due East. The climate is dry and healthy, although the temperature is very variable.

The Colony was founded on 28th July 1865, with 165 Welsh emigrants, and, up to 1877, in which year they had increased to 700, they suffered great distress and had to be assisted by Government. Thanks to this timely aid, the colonists were enabled to stick to the place, the real progress of which dates from 1878, when there was a superabundant wheat crop, and the yield of this grain has increased year by year. This year it is expected to be from 25,000 to 30,000 fanegas due to the fact that the farmers were enabled to irrigate their lands.

Wheat is the best cereal grown here, but recent experiments show that equally good results may be counted on from barley, flax, hemp, and oats. As irrigation is the great necessary, two engineers are now engaged in planning dams that will enable the waters of the Chubut to be used for the purpose. The roads are badly in want of repair, and the same may be said of the houses in which the local authorities reside.

As the numbers of the live stock are increasing, a Registry of Marks Office should be established.

There are 266 families in the Colony, comprising 1286 souls—755 males and 531 females. Of these 521 men and 313 women are unmarried, and 217 men and 203 women are married ; 17 widowers and 15 widows. There are 460 Welsh men and 221 Welsh women ; 253 Argentine males and 179 females ; the 43 males and 21 females remaining are of sundry nationalities ; 510 males and 288 females read and write ; 28 males and 29 females read but dont write, and 217 males and 194 women cannot do either. The ages are :—253 males and 218 females up to 10 years ; 120 males and 100 females from 10 to 20 ; 238 males and 151 females 20 to 40 ; and 94 males and 62 females 40 to 80. The settlers hold in free grant 28,765 hectares which, at 3 hard dollars per hectare, represent 86,295 hard dollars. Sales of 389 hectares for $1956, have been made by colonists to each other, 2217 hectares are under wheat, 24 under barley, 12 alfalfa, making 2,257 hectares under crops. The cost of seed was $6,624 for wheat ; $72, barley ; $120, alfalfa ; or a total of 6,816 dollars for seed.

The value is expected to be 148,880 $fts—144,892 for wheat, 2,148 for barley, and 1,840 for alfalfa, taking the fanega at 4 dollars.

The colonists own 6,408 cows, 1,177 horses, 725 mares, 6 mules, 3055 sheep, 227 pigs, and 4,000 hens, ducks etc, the value of all being 93,550 dollars. They also own 211 ploughs, 113 harrows, 6 threshers, 25 reapers, 11 water-mills, 1 wind-mill, 66 hand-mills, 4 steam mills, 117 carts, and 82 smaller ones—total value 54,069 dollard. There are 145 brick houses, 39 of unburnt brick and 141 of mud, total cost $f119-283 : The fencing is 48,045 of wire, 4230 of branches, and 4,410 of ditch —total cost 10,881 dollars. There are 16 general country stores in which $f. 64,000 capital is invested ; 2 taverns, 1 billiard saloon (cost $f. 4000), 3 cart makers ($f. 2000), 1 bakery ($f. 500), 1 tailor ($f. 100), 5 carpenters ($f. 1000), 3 blacksmiths ($f.600), 1 shoemaker ($f.200), 1 butcher ($f100) 1 tinsmith ($f. 100) 1 printer ($f.1000) —total $f. 73,600.

There are 41 "quintas" with 310 fruit trees and 22,635 poplars and willowe—value $f. 3,500.

The colony owns a sea-going schooner—the Monte Leon—worth $f.6,000, which runs to Buenos Aires, a whaleboat worth $f. 1000; 2 cutters, $f. 1000 ; 1 barge $f.200, and 65 small boats—total value $f. 10,800.

The Welsh settlers are Protestants, and have 9 chapels for the different sects. These chapels cost $f.6000. There are 3 schools (cost $f. 1000) attended by 120 children, in which Welsh is taught. There are 15 houses (to cost $f. 600) now building, and 300,000 bricks, at $f.8 per thousand, have been made.

The foregoing figures show that the colonists hold immovable property worth $f.224,478, while the rest and the harvest is estimated at $f.391,780 or a total of $f.616,258.

The National School was opened May 1st., but the colonists refused to send their children, on the ground that Welsh was not taught. For this reason only 30 children attend the school, while 120 go to the Welsh schools—total 150. As there are in the Colony 339 children of both sexes of from 5 to 15 years old, there are 189 children receiving no education.

During 1882 18 marriages, 56 births and 34 deaths took place in the colony, and 48 new settlers arrived ; 385 Indians came in to barter their skins, &c for dry goods and provisions, but they only remained a few days, and not the slightest complaint of their conduct was made.

There are three burial grounds. There are no high-roads, the only ones being those through the farms.

The crimes during the year were :—One revolt against the National authorities, 1 suicide, 2 cases of wounding, 2 thefts, and 5 "escandalos" (Anglice—"drunks and disorderlies") short terms of imprisonment were imposed for some of these offences.

The Committee named to distribute the lands has been steadily at work since February 28th. There are still 67 farm lots to be disposed of, without counting those now being surveyed.

During the year rain fell on 50 days, to the extent of 16.02 centimetres.

Position of the Colony :—Latitude 43 deg., 26 sec. S. Long. :—65 deg. 3 min. West of Greenwich.

The Post delivered 1149 letters, 208 official notes, and 2,000 newspapers, while 1,165 letters, 219 official notes and 27 papers were sent, the total revenue being $fcts. 19872.

Fourteen vessels, one a steamer, entered and sailed during the year.

The Imports amounted to $f.63,137, and the Exports to $f.41,525 as follows:

	Value $fts.

FROM THE SOUTH.

Arroyo Grande, Jan. 29, 1883.

Dear Mr. Editor,

In your issue of the 21st inst. I observe that "German Subscriber," by some peculiar mental process of his own, associates frontier "pulperias" with my remarks on the frontier camps. I fail to perceive the connection between "pulperos" and landowners, unless it be the common object of both to get as high a price as possible. I have nothing to say against that, it being purely optional on their part to sell or hold, as may suit, but I may be permitted a few words on "G.S.'s" misapprehension (to put it in a mild form) of what I wrote.

He seems fine of being personal, and insinuates that making public my opinions does not redound to my personal honour. I am afraid that "G.S." is not an adover of chaste truth, as I said nothing about the Venado Tuerto camp being sold above its value, but only expressed my opinion that the Puan, Carhue and Guamini camps would bear a favourable comparison with such as the Venado Tuerto, adding, that to assist sales Parry's agents were undeniably good.

I am afraid that "G.S."—unconsciously on my part—is touched on the raw, as the animus with which he writes leads me to suspect that he is either a seller, or has got sold. That does not concern me at all, nor does his assertion that I am envious of those shrewd speculators who are so well versed in human nature that know exactly the agents that affect it.

The eyes of "G.S." (those of his mental vision) must be like the turbot's, both on one side, for he is evidently unable to make allowance for the opinion of others. What a number of descendants the miller has who imagined corn only grows to turn their mill. Since writing last, Modern Rumour (a lying jade it is well known) has informed me that some gentlemen did buy a cat in a bag, and are not ashamed to own it. Their excuse to their friends, to prevent being looked upon as downright idiots, was the exhilirating influence of C. and B.B., those, added to the glowing description of the said cat, caused such a frantic desire to become the happy possessor of such an exceptional animal, that a sight of the bag was enough. After possession followed inspection of the bag's contents, and a sense of vicious happiness thrilled his whole frame, says Madame R. Some found a very sorry-looking animal, indeed, and, to increase their disgust, "Mr. Rusticus" kindly informs them that it will cost a sum equal to its first value to refine the brute.

The man who discovers a cheap and thorough method of refining camps deserves well of his country, and is well entitled to have his name inscribed in the Golden Register.

Respecting the instinct of the famous blind deer—he is famous now—might not his infirmity also have taught him to be content with the good he had, rather than seek for that he knew not of ? Or was it the special attraction of the grass, so like the blue Kentucky ? It may be all that "G.S." says, but I have a great objection to being led by the blind instinct of any blind animal, and have a perverse leaning in favour of "experience," as opposed to "instinct." Samples of instinct will crowd me considerably before I cave in.

"G.S." seems to have a standing grudge against "acopiadores de lana" (do they poach his preserves?) and yet seems willing to throw his mantle over the shortcomings of "pulperos" ("acopiadores" in a lesser degree) and thinks the Government ought to stretch a point in their favour as a kind of acknowledgment of services rendered to the provinces on the frontiers, by establishing "pulperias." If supervising officers allowed to pass all that "pulperos" send to market, it would cause a return to their old traditions. There are certainly some who would not knowingly buy stolen property, but to the majority the large profits are too tempting to be resisted, and strict supervision is the only safeguard we have against wholesale robbery.

The Policia Rural is anything but an effective police. "G.S." says something about honour—it is a scarce commodity in these days, and if he is in possession of the article, I beg to offer him my warmest congratulations and cheerful hope that I may yet see the prefix "Honorable" attached to his name. "J'ai fait mes adieux, Monsieur 'G.S.'"

Dear Mr. Editor, I was extremely pleased to see your well-timed advice in the matter of the *Nacional* and Irish. I hardly think it was kind to the memory of Father Fahy to haul his name into this dispute—a man beyond praise, and whose name will live long in the hearts of all with whom he came in contact. His large heart knew no distinction of religious belief or nationality where suffering was or help needed, and whose name is a household word, praise almost becomes insult.

LATEST FROM BRAZIL.

SUMMARY OF NEWS.

Rio de Janeiro, 1st Feb. 1883.

The hot weather which had prevailed during the preceding fortnight, and was increasing in intensity, has been for the time dispelled by a southwest gale, attended by torrential rains, which fell upon the city on the 27th ult. No notable damage was done in this port, but it was severely felt along the south coast and from southern S. Paulo report has already been made of the loss of the Brazilian brigantine Carvalho, with sacrifice of one life, and also of the wreck of another of unascertained nationality. It is to be feared, moreover, that there have been casualties among the shipping off the southernmost coast of the continent.

As regards the Empire the news of the last seven days has continued to be uneventful, and in Rio confined to administrative detail.

It will be observed in our provincial items that the emancipation movement in the province of Ceará is in active progression, no less than twelve new emancipation societies having been founded there in as many of the first days of this year, and signalized with numerous liberations of slaves.

The extraordinary session of the Bahian legislature closed on the 21st ult., without accomplishing anything for the regularization of the finances, owing to the hostility of the conservative majority towards the liberal president of the province.

The province of Rio Grande do Sul is calling for tenders, receivable until February 20th, for the purchase of 30 square leagues of land, owned by the province, lying next the provincial colonies of Nova Petropolis, Santo Augelo, Mont' Alverne and S. Felicio. The tenders may be for lots of at least one league or for the whole, and purchasers for colonizing purposes will receive preference.

The American packet Finance, the first of the three new steamers to be placed by Messrs. John Roach & Son on the New York and Rio line, will call at St. Thomas, Pará, Maranham, Pernambuco and Bahia both ways, contracted by them with the Brazilian government, left Newport News on the 27th of January and will be followed in February by the second new steamer.

Travellers on the north coast by packets of the Companhia Brazileira are grumbling again about food and drink supplied. In recent communications to the press the wines on board the Espirito Santo are described as nasty but not cheap, and the food as not fit for hogs. Probably the purveyors thought it a case of the proverbial pearls.

The Minister of Finance has ordered the provincial inspectors to issue notice of the calling in of the 20$ treasury notes of the 5th Estampa, which will come under the 10 o/o monthly progressive discount on January 1st 1884. Instead of merely ordering the subtreasuries to exchange the notes presented to them, the course in almost most every other country would be to order the public offices never to pay out, as they do up to the latest moment, any notes of a called-in series.

Licence has been given to I. J. Ferreira de Moura to work 50 datas of mines of copper at Quarahim, Rio Grande do Sul ; to Lieutenant-Colonel Carlos Gabriel de Andrade and B. A. Romero Veredas to explore for gold at S. Antonio do Rio Acima, in Sabará, Minas Geraes.

The L. & H. steamer Pinto broke her shaft on the home voyage and had to put into Pernambuco on the 27th ult., to replace it.

The title of Baron de Tinguá has been granted to Francisco Pinto Duarte.

On the 24th ult. 98 letters of liberty were delivered in Rio by Judge Serafim Barreto to as many slaves freed with the municipality's third quota of the Emancipation Fund, amounting to 71:391$. In all, 500 slaves have received freedom, at the cost of 319:100$, with the municipality's share of the fund, and there is still 11:291$ to employ. In all the Empire about 12,000 slaves have owed freedom to the Emancipation Fund created by law of September 1871. The private emancipations within the municipality since that date have been 9,253, besides 454 liberated on condition of serving for a term of not over 7 years.

Senator the Baron da Laguna received in the evening of the 24th ult., from residents of S. Catharinenses, a manifestation of thanks for the part he took in the promotion of the D. Pedro I railway guarantee.

On the 17th there was some trouble at Nitheroy with a body of 205 Canarian immigrants about to be embarked for Santos. Some families, engaged to go to Minas Geraes, refused to be separated from relatives and appealed with some success to their companions for support. The police however, finally succeeded in getting them all to embark, but not before night.

Licence has been given to J. L. Barbosa da Cunha to work lignite and explore other minerals on his estates in the municipality of Santa Barbara, Minas Geraes.

EDITOR'S TABLE

There was less of the post-Carnival, sea-green hue in people's countenances yesterday, and everybody looked fit for business, which was not the case on Ash Wednesday. A Lenten dullness, however, prevailed generally on and off 'Change. The sailing of the French packet kept merchants busy till the afternoon, when there was a hands-in-the-pockets feeling all round the clock.

A new measure, to suppress "pomos" next Carnival, was proposed to the Municipality on Wednesday by the Lord Mayor; but the large section of the public who object to Carnival and consider it worse than intolerable foolery, would like to see some steps taken in Congress to at least modify the nuisance in the Capital of the Republic. A short Bill, enacting that the Custom House, Banks, Bolsa, etc., be kept open for business on the Monday and Tuesday of Carnival would be a step in the right direction. The Government would benefit to the extent of two days' Customs' and other receipts; general business would go on, and the loss to merchants which its stoppage involves be avoided, while the personal comfort of everybody would be much enhanced. Such a Bill would not involve a prohibition of Carnival for those who like playing the fool, but it would put a spike in Momus's wheel and go a long way towards helping the already consumptive saturnalia into an early grave. The Municipal proposal to put down "pomitos," if passed, may lead to the adoption of missiles of "sterner stuff," such as those used by some of our young "blue-bloods" the other night, in front of the Aguila.

The doctors have all "gone to Hong-Kong," or in that direction. We received a Calcutta paper from Dr. Lausen yesterday, and another from Dr. Tait, who is now in Burmah.

Those who live in "altos" houses, with balconies to the street, should keep incessant watch on their children. The eminent engineer, Dn. Luis Huergo, now bewails the loss of a fine little daughter aged six, who overbalanced herself while standing on the rails of the balcony and leaning over it on Wednesday evening. The nurse gave such a shriek of fright when she saw the child's position that it frightened the poor little thing, and over she went. In an hour and a-half after she was a corpse. We sincerely sympathise with Mr. Huergo and his family on the lamentable accident that has so suddenly snatched away a dear child.

Mr. Edgar C. Courtaux, so well known in educational circles, has recently established a college in this city on the latest system adopted by the more advanced pedagogues of Europe. He starts on the principle that every pupil should have a "mens sana in corpore sano," a sound moral education, first-class instruction and athletic habits. Mr. Courtaux's programme is perfect, and a simple perusal of the contents will convince one immediately of the great abilities of the director. Parents may send their boys to the Colegio del Plata with all confidence that they will receive a sound education and paternal care during their diurnal visits to the schoolrooms. The college is situated in Calle Belgrano 348, and marks a further advance in the educational status of the city.

We regret to see in our obituary column to-day the name of Mr. James Cameron, of Mr. Lawrie's estancia "Los Sajones." The sad event is rendered sadder still by the fact that the deceased gentleman was to have been married on Monday next.

Our own correspondent in Paysandu, who, by the way, only half earns his salary—he writes so seldom—says :—"At a ball last night in the theatre some "adornos" took fire, and though the blaze was soon extinguished, many ladies were too frightened to stay." This skinny account of the accident is most unsatisfactory, and arises solely from our correspondent's want of practice. Nothing affords a better field for writing than a fire, especially at a ball, and still more especially, when no harm has been done.

A London colleague says :—

"Mr Gladstone must have thought it necessary to do something for a duke, his dukeless Cabinet being so anomalous, and the opposition of most of the dukes being so persistent. Therefore he has given one of the Garters to the Duke of Leinster. The Duke is the head of the Fitzgeralds of Ireland, is premier duke of Ireland, premier marquis (Marquis of Kildare) of Ireland, and premier earl (Earl of Kildare) of Ireland. One of his titles, that of Baron of Offaly, dates back to 1205—the reign of King John. He is not only a duke and every other title in the peerage ; he is a grandson on his mother's side of an earl ; and his wife is the daughter of the Duke of Sutherland. One can quite understand why Mr Gladstone has remembered him at this moment. Not so much for his services to Irish education, though those have been many ; nor even for his general character as a landlord, though that stands high ; but because when the duke's brother landlords were abusing the Government and the Parliament which passed the Land Act, and seeking to destroy the bill, his grace, as the head of the Irish aristocracy, set them an example which, had it been followed generally, would have given us a rapidly tranquil Ireland. He took the leases which he had granted because the farmers, his tenants, desired them, and tore them up, that no persons on his estates should be debarred from the full enjoyment of the benefits of the Land Act. A deed so generous must have come from high character, and Mr Gladstone has done well to recognise it."

Professor Ryan delivered the inaugural address at the commencement of the scholastic year which began on Ash Wednesday before the assembled pupils and teachers of St. Andrew's Scotch School, annexed to the Established Church of Scotland in this city. Mr Hutton, the head-master, responded on behalf of the school, and after three hearty cheers the children enter ed on the great work of instruction for the year 1883.

Our young friend, Mr. Henry S. Kelly, has carried away one of the big prizes in the lottery of life—an heiress. He is now seriously of opinion that—"Out of matrimony there is no redemption." We sincerely wish him and his fair bride a long and happy life.

In reference to the celebration of Christmas at home, a leading London colleague says that "the 'meriment' of the day is distinctly decaying, while its religious observance is increasing."

Here is a very odd thought, which all young ladies will do well to bear in mind :—Remember, it does not follow because a gentleman wrings your hand however so muchly, that he really intends to ring your finger.

The Buenos Aires cricketers gave the Montevideans a "dreadful beating" down there during Carnival. On Monday the Buenos Aires were at the crickets all day, and scored, we hear, 235 runs.

It is rumoured that the Emperor of Brazil has invited President Roca to pay him a visit, that the latter will accept, and that the Emperor will return the visit speedily. It is clear that there is no fight in the Misiones Question.

Colonel Mansilla, now in Europe, has written to President Roca, expressing a strong opinion that there will be no war in the Old World this year. We hope he may prove right.

The latest political "broma" is, that President Santos has a "pile" lodged in the Bank of Ireland, and means to bolt for Cork without beat of drum, some fine morning. Did you ever ?

Wasn't it rough on Ella just as she was telling Frederick at lunch how ethereal her appetite was, to have the cook bawl out, "Say, will you have your pork and beans now, or wait till yer feller's gone?"

FIRST WHEAT SHIPMENT.

B. Aires, Feb. 7, 1883.

To the Editor of the *Standard*.

Dear Sir,

In your paper of the 4th instant I find an inquiry from your intelligent Correspondent at Rosario (whose articles I always read with pleasure) as to who made the first shipment of wheat to Europe from the Plate.

Mr. Latham, as he states, may have made the first shipment of Patagonian grain in 1849, but I well remember that in 1850 Don Juan Pablo Arumburú, a native merchant, sent a cargo of this Province to Liverpool in the British barque Sultana, of, I believe, 400 tons capacity.

Having fulfilled the inquiry of your Rosario Correspondent,

I am, Sir,

Yours very truly,

Octavio Rossi.

CHUBUT COLONY.

To the Editor of the *Standard*.

Dear Sir,

Seeing your remarks in your issue of January 28th in reference to Chubut, Patagonia, and having been interested a few years ago in the matter of irrigation down there, and as I see by yours that *the identical same plan is being adopted for such purpose* that I proposed to the colonists and to the National Government, I beg to trouble you with a few remarks.

I was nominated by the Government to study the best system of irrigation that could be practically carried out down there. I did so, prepared all the necessary plans and sections, and handed in same, accompanied with a Report of 42 pages. I proposed utilizing the two old natural ditches which extend many miles along the valley—one on the north and the other on the south side—and by erecting a dam across the river, where I planned it, both ditches would retain the diverted current of water, and by having sluices on these old natural ditches would give the colonists power by water-wheel, turbine or hydraulic

Ayer's Hair Vigour
(A DESIDERATUM)

For restoring the Natural Vitality and Colour of the Hair.

Prepared according to scientific and physiological bases with the object of bettering the condition of the hair, it stimulates the enfeebled glands of the scalp into healthy action, arrests the falling of the hair and promotes its luxuriant growth; rendering it soft, youthful and glossy.

This excellent preparation, the best and without doubt the only one as a remedial agent for the many defects and diseases to which the hair is subject, calls for and merits the most serious attention of all those who have had the misfortune to lose partially this most beautiful and natural ornament. **AYER'S HAIR VIGOUR** employed intelligently has obtained really surprising results. Faded or grey hair it restores to its original colour; and lost hair is often, but not always, reproduced.

It has always **PREVENTED FALLING** of the hair; whilst as a dressing ladies say it is the most agreeable as it is the most beneficent. Containing neither dye nor oil, it does not soil the finest cambric.

LAND

On the 15th March

Messrs. A. Bullrich & Co. will sell 100 Square Leagues of

Excellent Land

AT

LORETO

In the Province of

SANTA FE

Joining the famed Venado Tuerto Camps.

The land will be divided into ½ league lots, a purchaser of one Lot having the right to take up to four leagues at the same price. Terms one fourth of price cash, and balance in four annual payments bearing 7 o/o interest. All the Lots will be sold without reserve to the highest bidders. About the 20th inst. the plans will be ready for distribution, and meanwhile interested parties can apply to Edward Casey, 80 Reconquista, or to Messrs. A. Bullrich & Co.: 78 Alsina.

The quality of land is guaranteed to be equal to the Venado Tuerto, so that there is no need of going into a long description of soil, grasses, etc.

A stage-coach runs from Pergamino to Hinojo, tickets for which can be obtainad (gratis) from Mr, Casey.

ON 'CHANGE.

February 8th, 1883

Patacon	25.01
Cedulas A	100½
Cedulas E	84½
National Bank Shares	105½

The share market opened this morning with symptoms of weakness arising from the heavy sales of several operators. Operations ruled more active than yesterday and 1,650 shares were sold during official hours. Rates for the end of the month opened weak at 106 and fell gradually to 105½, closing price of the market. Operators appear to have completely forgotten the Franken arrangement and its problematical results; the 15 days, which were requested by Mr. Franken, expire on Saturday and no news has arrived from Paris with reference to this important subject.

Speculation in shares is languishing; the bearish movements this morning failed to throw any life into the market, and there is a heavy feeling of dullness in the stock. Those who delivered shares last month sold to-day and occasioned the drop in the rates. Operators believe that the bears are endeavoring to effect a fall to buy heavily. No operations as yet have been effected for the end of next month. Speculation for March will probably begin next week.

Over $f.100,000 Cedulas were sold during official hours. Series A rules weak, 13,000 were sold for cash at 100½. Series E rules slightly weaker than yesterday; operations for cash closed at 84½, and 84¾ for the end of the month. Twenty thousand of the Series were sold for the end of March at 85.

No operations were reported in gold; there are buyers at 25.01. The exchange market presents the usual calm features: some bills were passed at 49⅜; yesterday a fair amount of francs was passed at rates between 5.24 and 5.26 on France and Belgium. The money market rules less difficult and more liberality is displayed by bankers.

Freights continue firm; plenty of bales are offering, and exports in general look more active in view of the reduced number of steamers. Rates are quoted at 25s and 10 o/o.

The vexed question of limits between this Province, Cordoba and Santa Fé has not yet been settled. Delays have succeeded each other in such an aggravating manner that one year already has elapsed in "statu quo"; in view of the actual dull state of the question, settlers on the disputed boundaries look forward to another year of "tramites", of promises and of lagging in the parlors of Governors and Ministers, before any reasonable prospect of settling the matter becomes perceptible in the Government House. Governor Rocha should settle this boundary difficulty immediately, as the actual condition of the question threatens to become perennial.

The amortized numbers of the 9 o/o Treasury Bill Loan are in the printer's hands and will soon be published and sent to London. The list of numbers is lengthy.

The Savoie has arrived in Montevideo from the Mediterranean with 350 passengers; the Derwent, of the Royal Mail, arrived in port with over 150 Italians on board. The current of emigration from Italy continues very strong.

The fruit season is abundant; grapes are selling in San José de Flores at the rate of $25 m/c per arrobe, and peaches are being forwarded from the Tigre by the million at $10 m/c per 400. Strange to say, the fashionable cafés of the city charge $1 m/c and $2½ m/c respectively per peach. At San Fernando and in the Tigre one paper dollar will buy forty-five large peaches. About two months ago, an esteemed subscriber sold 18 squares of peach "monte" for $100,000 m/c., cash. Grapes are selling freely and there are buyers of from 100 to 2,000 arrobes of the fruit. Italian gardeners are doing a splendid business in grapes, making fine desert-wines, Asti, champagne, etc. The actual price is $25 m/c per arrobe, if one buys several hundred arrobes. Portuguese grapes sell in London during the season at 4d. per lb., double the price paid in Buenos Aires. Viticulture is extending every year, and wine is being made all over the Province, and one of the safest investments in the market is planting vines.

The Belgrano has arrived at Montevideo with six first-class passengers, and 18 emigrants.

The sales at the ring were as follows:—

Cedulas—
For cash A 13,000 at 100½
For cash E 57,000 at 84¼-⅜-½
For Feb. 28th E 40,000 at 84⅜-½-⅝

Advices from the far-off province of San Juan are most satisfactory. The wheat crop is abundant and the fanega is selling at 18 reales Bolivian. The wheat crop of the Republic in general is unprecedented, but unfortunately as much cannot be said of linseed. The latter crop is bad in the North and West and only middling in the South.

The Judge has declared the well-known dealer Mr. F. J. Pereda bankrupt and orders have been issued for his arrest. Mr. E. Green has been named provisional "Sindico".

Advices from Lobos state that the camps are very dry; the late rains have had a most beneficial effect, especially on the linseed crop. Many "chacareros" who considered the crop lost have recovered hopes of saving part of same. Camps around Bragado and Rodriguez are not in good condition, and rain is much wanted.

The Canara Sindical sat two hours to-day to discuss the new statutes of the Bolsa. The sitting lasted till half-past four.

Several hundred Shares were sold during afterhours; rates tumbled to 104¼, and the market closed at that rate. Rumours were spread at a late hour that an "ultimatum" had been sent to the Board of the Bank, requesting in a definite manner from the Directors, whether they accepted the Franken proposal or not. The truth of the matter is that a new proposal was submitted to-day to the Board of Directors. A special meeting was called and the terms of the new contract were discussed and thrown out.

The Board of the National Bank settled to-day the "pro rata" distribution of Shares. Subscribers to 200 and less Shares will receive the full number; Subscribers to over 200 shares will only receive 60 o/o of the numbers applied for.

The first chapter of the second, revised, edition of the National Bank Report, published by a native colleague, has been a bitter deception to the expectations of our anxious market. The attacks are meaningless and have no serious foundation, revealing little knowledge of the subject under discussion. The writer has evidently perused some old balance-sheets of the Bank, and has drawn some futile deductions undeserving of any further comment.

Dn. Pedro Elia, as attorney for Mr. Malcolm Graham, acting manager of the Central Argentine Railway, has obtained from the National Government a concession for steamtows in the Rivers Plate, Parana and Uruguay. The concession is one of the greatest importance, and will form the basis of a joint-stock company. We congratulate Mr Elia on pushing this business through with such great success. Few could have done the business quicker.

All day to-day Don Mariano O. Barrio was signing the new Municipal Bonds. There are now 4 millions signed, sealed, and ready to be delivered, but the total is 16 millions and Mr. O. Barrio has to rise early every morning and begin before 7 o'clock a.m. at his work. The new Bonds look well and bristle with coupons.

Gas Shares very firm and looking upwards; buyers 1,475, no sellers.

Mr. Cassels, who has arrived from the States, was welcomed on 'Change.

The following sales of produce are announced:—

212 pipes beef tallow from Podesta's at 15 3/16 rls. gold per @.
6 to 700 do from Nuevo Paysandu at 16 rls do.
600 do from Casa Blanca at reserved rates and 10,000 salted hides from the same establishment; rates are kept under reserve.

La clase del campo y las circunstancias de baratura en la base de venta, asi como las con diciones inmejorables de la tierra hacen que recomendemos a los Srs Agricultores el lindo lote de campo que ofrecemos. Es tambien aparente para ovejas, tiene 4 buenas piezas de material, varios ranchos, y una buena laguna de rica agua.

Linda este campo por el N. E. con los herederos de Planes y Ferrer, por el Sud E. con los Srs. Buchanan, Barreiro y otros, al S. O. con Mongiardini, Brown, Maxwell y Scarella, y al N. O. con los Srs Martinez, Mongiardini y Brown.

El campo es rico y bien conocido. Despues de la venta del mismo, venderemos una gran parva de rica alfalfa, producto del mismo campo.

Los Titulos perfectos.

El Jueves 15 de Febrero 1883
A las 3 en punto de la tarde

Venderemos al contado, por orden terminante de su dueño y por la base fijada el buen campo que arriba mencionamos, compuesto de 482 cuadras cuadradas, de forma bastante regular, de pastos tiernos y abundantes, con 3 buenas poblaciones, la principal tiene 6 piezas, con techos de fierro galvanizado, alfalfares jagueles, alambrado, etc.

Reconoce una hipoteca por valor de $200,000 m/c al Banco Hipotecario en Cedulas de la Serie E. teniendo amortizado un año solamente con la cual podra seguir el comprador.

Esta arrendado por 24,000 m/c el año, sin contrato.

La amortizacion é intereses que hay que pagar anualmente al Banco, asciende a la suma de 18,000 m/c

Las buenas condiciones para el pago, la calidad de sus pastos, y la base sumamente baja, hace que llamemos la atencion de los especuladores en tierras, pues se ofrece la oportunidad de un magnifico negocio.

NOTA—Los personas que deseen ver el campo pueden tomar el tren que va á Lobos y allí la Galera que sala todos los dias para el Monte.

Es conocido por campo de Ratto y linda con el Establecimiento de Romero. Actualmente lo arrienda Dn Pedro Gomez.

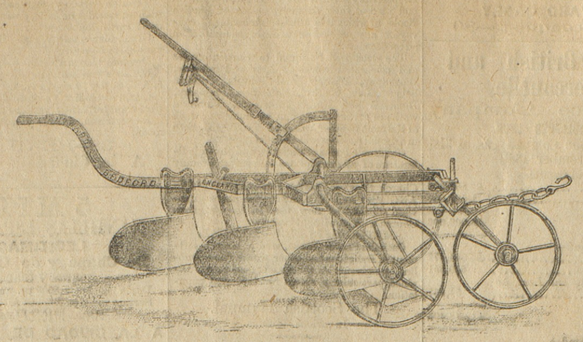
"PLOUGHS"



"PLOUGHS" "PLOUGHS"

Messrs M. Forrester & Co.

Beg to announce to the Public that they have lately introduced into this country with great success the

Celebrated Two and Three Furrow Ploughs of
Messrs. HOWARD
ENGLAND

These WROUGHT IRON PLOUGHS fitted with breasts and shares of steel, have been extensively used in the Provinces and are destined to supersede the light and flimsy wood implements made by the Americans.

By means of a simple hand lever the onward movement of the animals raises the plough out of work at the ends, thus saving the driver the usual hard lifting connected with ploughing.

The two Furrow Plough is drawn by a pair of bullocks, thus doing double the work of a single plough and still with only one man.

These "Multiple" Ploughs are now almost universally employed in Australia and South Africa, and in recommending these implements Messrs. Forrester & Co feel confident that they are well adapted to the requirements of the Plate.

In order to procure these Ploughs orders should be sent in at once, or disappointment may be incurred.
